

Introducing Trico Card Manager for Mobile

Trico Card Manager enables you to manage commercial card transactions through a web-based user interface. And now, we are pleased to announce the availability of the mobile friendly version.

Using your mobile device, here are some of the screens you can access:

- **Account Summary** – Shows account summary details for the selected card including current balance, credit limit, and payment date.
- **Transactions** – Shows date, amount, and merchant name for up to 25 of your most recent transactions.
- **Authorizations and Declines** – Displays the most recent authorizations and declines on the selected card.
- **Make a Payment** – Ability to pay using one of seven payment funding accounts. *Please note that the payment funding account must already be set up through the main site.*
- **Change Account Status** – Allows the selected card status to be updated.
- **Change Limit and Strategy** – Allows a strategy or a limit to be changed on the selected card.

To get started:

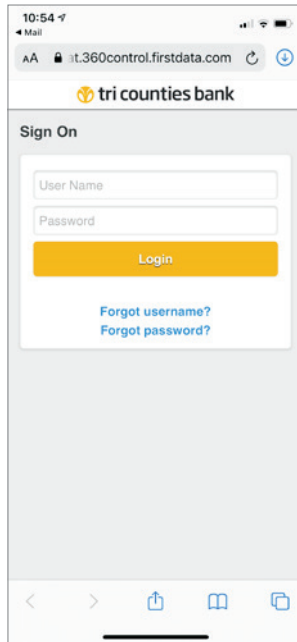

Log In

Using your mobile device, open your preferred web browser and go to:

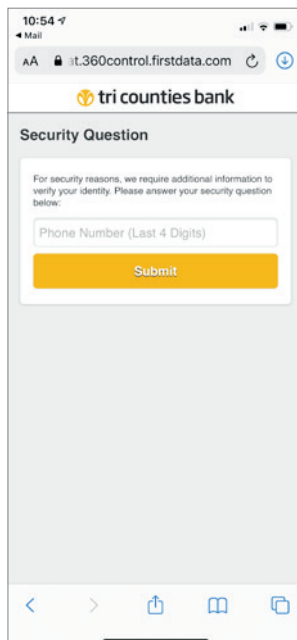

<https://www.tcbk.com/creditcards/login>

Click on the Commercial Card **Log In** button.

Log in the same way as you do on the desktop version. Enter your User Name and Password. "Forgot Username and Password" functionality is also available

Security Question

To verify your identity, enter the last 4 digits of your card number **or** the last 4 digits of your phone number.
